Angola's attempts to stabilise waning crude oil production received a boost on Wednesday when two offshore projects started up, adding a total of 60,000 barrels per day to national output, the ...

Neopentane-based battery technology, while promising, faces several significant challenges that hinder its widespread adoption in advanced energy storage solutions. One of the primary ...

France-headquartered energy giant TotalEnergies has started oil production from two subsea tie-back projects to existing floating production, storage, and offloading (FPSO) vessels off the ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation phases ...

Powered by: China charts low-carbon path for energy sector Delta Approves Electricity Commission to Tackle Energy Challenge EV battery printing breakthrough could double life ...

The "Simplifica Turismo" project, which introduces 72 administrative simplification measures in the tourism sector, will eliminate 7 licenses, 3 permits (alvarás), and 1 certificate required for ...

The Clean Electricity Investment Tax Credit under Section 48E of the Internal Revenue Code (IRC) represents a pivotal incentive for advancing zero-emission electricity generation and ...

Both projects capitalize on the unused processing capacity of existing floating production, storage, and offloading units (FPSOs), specifically PAZFLOR and CLOV, enabling the addition of a ...

Sub-Saharan Africa's second-largest oil producer after Nigeria, Angola has overhauled its oil and gas regulations to attract energy companies and help stabilise oil production that has halved ...

Struggling to understand how Energy Storage Systems (ESS) help maintain grid stability? This in-depth, easy-to-follow blog explores how ESS regulate frequency and manage peak loads, ...

Paris, July 23, 2025 - TotalEnergies announces the start of production from the BEGONIA and CLOV Phase 3 offshore projects, leveraging ullage in the PAZFLOR and CLOV floating production, storage and offloading units (FPSO) ...

Von der Leyen warns that imposing this tariff "would disrupt essential transatlantic supply chains, to the detriment of businesses, consumers, and patients on both sides of the Atlantic" ...

Solar and wind generated 40.2% of the ERCOT grid's electricity this year through June. When coal plants shut down for unexpected maintenance, solar and wind stepped in, providing about ...
