

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBABA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

"KBR has been delivering world-scale energy solutions in the region for over three decades and these projects mark a significant step in Azerbaijan's clean energy security objectives," said ...

Foreign direct investment is trust. When global companies choose to invest in manufacturing, technology, logistics, agriculture, tourism, and other non-oil industries, they are making a long ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

The current research progress in incorporating MOFs and their derived materials into energy storage devices, including alkali-metal-ion batteries, metal sulphur batteries, aqueous zinc-ion ...

iii. The Status of Battery Energy Storage in T&#252;rkiye Recent policy reforms, regulatory advancements, and targeted investment incentives have positioned T&#252;rkiye's battery energy storage systems (&quot; BESS &quot;) market as a high ...

Azerbaijan aims to generate over 2 GW of renewable energy by 2027 and expand capacity to over 8 GW by 2030. These figures represent a tripling and quadrupling, respectively, of current ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...

Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage systems (BESS) to serve a growing ...

The visit focused on XIHO Energy's core product line: the main product customized battery pack covers multi-specification integrated systems such as home energy storage and industrial and ...

BP's Azerbaijan strategy exemplifies how traditional energy firms can adapt to a decarbonizing world. By integrating cutting-edge technologies, optimizing subsea operations, and investing in ...

ABB has been awarded a large order by bp, as the operator of the Sangachal terminal in Azerbaijan, to support the electrification and power grid stability of one of the world's largest ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

LG Energy Solution reported a rise in its second-quarter profits despite a forecasted slowdown in electric vehicle (EV) demand expected by the first half of 2026. The company has indicated ...

Renewable energy storage specialist Apatura said it had received planning consent to build a new grid-scale 560-megawatt battery energy storage system (BESS) near Clydebank in West ...

Follow the fast-growing renewable energy market in MENA with news coverage of solar mega-projects, wind farms, hydrogen developments, and energy storage. Gain insights into government tenders, PPAs, policy shifts, ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

Syria's Energy Minister Arrives in Saudi Arabia for Energy Collaboration Blackout hits Eastern Europe NTPC Green Energy Ltd Inks Pact For Setting Up Battery Storage Projects In Bihar ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...
