

Detailed info and reviews on 18 top Electric Vehicles companies and startups in Israel in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

In the first half of the year, more than 5.9 million battery electric vehicles (BEVs) were registered worldwide, a 37% increase compared to the same period in 2024. For comparison, full-year sales in 2024 had only grown by around 14%. China ...

Market segmentation reveals a strong preference for Battery Electric Vehicles (BEVs) over Plug-in Hybrid Electric Vehicles (PHEVs) and Fuel Cell Electric Vehicles (FCEVs), with BEVs capturing the largest market share.

Hydrogen vs. Batteries: Is the Future of Cars Fuel Cells or Charging? The automotive industry is in a whirlwind of change, with electric vehicles (EVs) taking center stage. But while battery ...

Electric vehicles (EVs) are revolutionizing the way we think about transportation, offering an eco-friendly alternative to traditional gasoline-powered cars. These vehicles run on electricity ...

The forecast period (2025-2033) anticipates significant market expansion across various segments, including battery electric vehicles (BEVs), plug-in hybrid electric vehicles (PHEVs), ...

According to a report by Electrek, a new study has provided quantitative evidence underscoring how battery-electric vehicles (BEVs) reduce the amount of brake dust generated. Conducted ...

China's BYD said on Tuesday it delivered 382,585 vehicles globally in June, marking a 10.5% increase from the same month last year. Of the total, 377,628 were passenger vehicles, ...

The simultaneous adoption of battery electric vehicles and switching from privately owned cars to carsharing substantially impacts the release of greenhouse gas emissions, mobility costs and ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

The European Commission announced on Wednesday that Chinese-made battery electric vehicles, or BEVs, will soon be subjected to punitive countervailing tariffs, after the conclusion of the bloc's anti-subsidy ...

Battery electric vehicles bevs israel

The extended range multi-mode electric vehicle (ERM-EV) market is poised for significant growth, driven by increasing consumer demand for vehicles offering longer ranges and greater ...

The project consortium, coordinated by an Austrian Research Institute, is looking for a company (SME or bigger) acting as Original Equipment Manufacturer, who can cover all vehicle-related ...

The growing adoption of battery electric vehicles (BEVs) over hybrid electric vehicles (HEVs) is another major driver. BEVs typically generate more particulate matter due to tire and brake ...

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

The research is clear: In major markets that make up 70% of global new passenger car sales, today's battery electric vehicles (BEVs) are associated with far fewer greenhouse gas (GHG) emissions than internal combustion engine ...
