

New Energy Vehicle is a Chinese term for EVs, which includes battery electric vehicles (BEVs) and plug-in electric vehicles (PHEVs). To be completely precise, it also includes hydrogen vehicles (FCEV), but their sales are nearly non ...

These components are specifically designed for automotive batteries used in battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs), with the expansion finalized as of June ...

The global electric vehicle (EV) market is witnessing a significant resurgence, with sales in the first half of the year exceeding 5.9 million battery electric vehicles (BEVs), according to a ...

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

Imports of battery electric vehicles (BEVS) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...

Learn how to import an electric car into Malawi under the new 2025 regulations. Discover step-by-step guidance, customs requirements, tax benefits, and how to simplify the process using ...

BMW Group has announced its commitment to hydrogen fuel cell technology, planning to launch its first hydrogen-powered vehicle into series production by 2028. This move positions the ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

Unlike plug-in hybrids, BEVs run exclusively on electricity stored in large-capacity battery packs and emit zero tailpipe emissions, helping countries move closer to net-zero goals. Automakers ...

The storage is provided through a combination of fleet vehicles and stationary batteries with Nuvve Corp as the aggregator. Thus, in addition to functioning as vehicles for their primary ...

Guidance for car manufacturers on how to apply for their vehicles to be eligible for the Electric Car Grant. The guidance explains: how the scheme works vehicle eligibility the application process ...

The commission said it &quot;has provisionally concluded that the BEVs (battery electric vehicles) value

chain in China benefits from unfair subsidization, which is causing a threat of economic injury to EU BEV producers&quot;.

This report is a life-cycle assessment (LCA) of the global warming potential of passenger cars sold in the European Union (EU). It compares sales-weighted average medium segment gasoline, diesel, and natural gas internal ...

While hydrogen fuel cell vehicles have been viewed by some as competitor&#173;s to battery electric vehicles ( BEVS), BMW sees the two technologi&#173;es as complement&#173;ary. For BMW, the future of ...

A new report by the International Council on Clean Transportation (ICCT) finds that battery electric vehicles (BEVs) produce significantly fewer greenhouse gas (GHG) emissions than ...

Hydrogen fuel cell cars (FCEVs) have been on the market for a similar duration to the current wave of battery EVs (BEVs). But they have sold a tiny fraction in comparison. In 2024, 12,866 ...

In some cases--like with regenerative electric locomotives such as the Fortescue Infinity Train--machines can even recharge themselves, eliminating fuel costs entirely. When ...

Okay, now what about electric and plug-in hybrids? The company plans to offer 15 battery electric vehicle (BEV) models by 2027, compared to the five it currently offers. Two of these new BEVs ...

Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs) share some components, but not all: Auxiliary battery: Both BEVs and HEVs use an auxiliary 12V battery for low-voltage systems (lights, infotainment, etc.).
