As part of a roadmap to transition 400,000 vehicles to electric in Ho Chi Minh City, the municipal Institute for Development Studies (HIDS) has proposed building a standardized battery ...

Battery recycling offers a smart and safe alternative. Instead of letting used batteries become toxic waste, we can process them to recover valuable materials like nickel, cobalt, and zinc.

Electric vehicle or EV battery recycling in China is growing into a multibillion dollar business as investors are eyeing opportunities in surging volumes of retired new energy vehicles, or NEVs. Analysts said enhanced ...

SCG International Corporation Co., Ltd., Cement-Building Materials Business, one of Thailand's largest infrastructure supply and manufacturing companies, will partner with recycling leader Total Energy Solutions Co., Ltd. ...

Proper battery recycling separation hinges on chemistry, size, and voltage. Alkaline, lithium-ion (Li-ion), and nickel-cadmium (Ni-Cd) require distinct processes to prevent toxic leaks or fires. ...

Recycling batteries responsibly is crucial for reducing pollution, conserving resources, and promoting sustainable living. In this article, we will explore why battery recycling is important, ...

BANGKOK, Thailand, Jul 22 2025 (IPS) - The Asia-Pacific region is becoming a showcase for regional solutions. As electric vehicles (EVs) rapidly gain traction, the region must confront a ...

He envisioned collaborative efforts in technologies, including solid-state batteries, intelligent EV platforms, and battery recycling solutions, with the establishment of joint research and ...

The world-renowned leader in the production of new energy batteries, NV Gotion Co., LTD, and U Power Limited, a provider of complete electric vehicle battery-swapping solutions that is on ...

In particular, the MOU states that both parties will form a strategic partnership to establish a battery-swapping infrastructure in Thailand and work together to develop battery modules and ...

?? Exploring the EPR system for power battery recycling from a supply-side perspective: An evolutionary game analysis ?????????????????EPR?:?????? ??? ...

ES Battery Thailand focuses on reducing waste, recycling materials, and implementing energy-efficient practices in its manufacturing processes. Is ES Battery Thailand involved in any ...
