

Against the backdrop of the rapid development of cobalt-free batteries, African cobalt mineral suppliers led by Congo (Kinshasa) may be severely negatively affected, and their position in the EV battery supply chain ...

Even if manganese zinc batteries offer lower total cost of ownership, the upfront capital for research and development (R& D), deployment, and integration may be hard to justify without ...

The electric vehicle (EV) battery market is experiencing rapid growth driven by increasing demand for EVs, stringent emission regulations, and government incentives. One of the most ...

Electric vehicles contribute to an ongoing environmental and humanitarian crisis in the Democratic Republic of the Congo (DRC). Mining operations cause deforestation, pollution, food insecurity ...

L'invention n'est pas qu'un exploit personnel: elle représente aussi un atout stratégique pour la RD-Congo, qui détient plus de 60% des réserves mondiales de cobalt, élément essentiel à la ...

OP has been appointed to deliver the new UK headquarters for Potenza Technology, the battery research and development division of FPT Powertrain, part of Iveco Group. The leading office ...

The Australia-US Researcher Exchange Network aims to strengthen Australia-US research ties, build Australian research capacity in battery technology, and ultimately contribute to the development of a robust ...

With the research at MEET Battery Research Center and Helmholtz Institute Münster, the federal government funds two beacons of German battery research through project and institutional ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...

The move, part of a broader strategy to stabilize global markets and attract local investment, comes amid shifting dynamics in the critical battery metal industry. Congo, responsible for ...

Battery capacity aging detection equipment manufacturer identifies with Yishengda - EST group is a national high-tech enterprise that provides full industry supply chain services for the new ...

A transformative research partnership led by Swansea University in the UK, in collaboration with tertiary institutions in Kenya and Nigeria, has secured major UK government funding to fast ...
