

These five battery technologies could be poised to challenge lithium-ion in EVs. Let's touch upon their workings, advantages, and drawbacks to see if they could shape a sustainable future for ...

GM's big bet on affordable EV batteries is here General Motors is significantly reducing electric vehicle prices by adopting lithium iron phosphate (LFP) battery technology, which has been ...

Italvolt is Italy's first large-scale battery manufacturer, launching a 45 GWh facility in Scarmagno by 2025. Specializing in NMC lithium-ion cells for EVs and energy storage, it utilizes XFC and solid-state technologies, supporting sustainable ...

China has put export restrictions on technologies critical for producing electric vehicle batteries, in a move to consolidate its dominance in the sector that has contributed to the country's ...

Even as the United States lifts restrictions on advanced AI chips, the PRC is tightening export restrictions on technologies critical for producing electric vehicle batteries. This move will ...

China has imposed export restrictions on eight key EV battery technologies as the country seeks to consolidate its dominance in the global EV race. The move makes it harder for Chinese ...

The event showcased a new generation of proactive safety battery cells and systems, UPS 2.0, and Data Center Energy Integration: Source-Grid-Load-Storage Solution marking a key milestone in Desay's mission for high ...

BEIJING, Jul 13 (China Economic Net) - In a significant step toward scientific collaboration, the University of Sargodha (UoS), Pakistan, and Zaozhuang School of Technology (ZST), China, ...

China has introduced new restrictions on the export of battery cathode material preparation technologies, including those related to lithium iron phosphate (LFP) and lithium manganese ...

The Government of the Republic of Moldova is offering citizens a new and significant funding opportunity for the modernization of individual homes. Casa Verde - a grant-based financing ...

Batteries Desay Battery Introduces Proactive Safety in Smart Energy Storage Desay Battery, a top supplier of all-inclusive energy storage solutions worldwide, launched mass production in Changsha, China. UPS 2.0, a new ...

BEIJING, July 15 -- China tightened export restrictions on certain battery materials technologies today, as

Beijing pulls ahead in the emergent sector despite its trade war with the United ...

China has recently imposed export restrictions on technologies essential for the production of electric vehicle (EV) batteries, aiming to strengthen its dominance in the global EV sector. The ...
