

Press Release, 23 July 2025 Southwest Research Institute (SwRI) has successfully completed its ambitious eight-year-long connected and automated (CAV) vehicle technology project. As part ...

The Akwa Group, a Moroccan energy and oil distribution giant, has announced the launch of an ambitious oil storage project in Bargny-Sendou, approximately 30 kilometres from Dakar, the ...

La première unité flottante de stockage et de regazéification (FSRU) de KARMOL est arrivée à Dakar, marquant une étape majeure dans le projet gouvernemental LNG-to-Power (Gas to Power) implémenté par Senelec en ...

The global market for Aluminum-Plastic Film for Power Energy Storage Soft Pack Lithium Batteries is experiencing robust growth, projected to reach \$1448 million in 2025, expanding at ...

With electric vehicle (EV) sales not meeting early projections, some major automakers are shifting focus--channeling their vast battery production capabilities into stationary energy storage ...

US President Donald Trump has declared his disdain for electric vehicles (EVs) and with sales disappointing, carmakers who invested heavily in battery production could follow General ...

Abstract Electric vehicles (EVs) are becoming increasingly popular, but their widespread adoption is still limited by issues such as short battery life and limited driving range. To address these ...

By leveraging innovative systems, cities and utility companies can unlock new potential for EV charging networks. Here are four tangible benefits for electric cars, charging stations and ...

La huitième édition du Salon international des énergies renouvelables et de l'environnement en Afrique (SIERA) a ouvert ses portes ce jeudi 24 avril 2025, à Dakar, au Sénégal.

Electric vehicles (EVs) have emerged as a pivotal technology for environmental protection, driving the development of battery energy storage systems (BESS) for sustainable charging solutions ...

Electric vehicles and water heaters are creating a vast distributed energy storage network across cities, potentially providing over 1,000 gigawatt-hours of flexible storage capacity in Australia to ...

The Dakar rally has entered the conversation for the motorsport division as more "environmentally friendly". Formula has the "E" division with full electric powertrains. On the other hand, more extreme motorsports are

Dakar energy storage for electric vehicles

also trying to ...

The Trojan T-105 Plus 6V Flooded Battery is a deep-cycle lead-acid battery designed primarily for electric vehicles requiring sustained power delivery, including golf carts, low-speed industrial ...

Converting electric cars to batteries helps stabilize the power grid. The technology allows idle vehicles to be used to store and release energy. Pilot projects in Europe are exploring these ...

They also integrate the EVs as critical distributed energy storage units, and helps in grid stability, and energy load balancing through vehicle-to-grid (V2G) integration. Solid-state batteries ...

Le développeur de projets d'énergies renouvelables en Afrique subsaharienne, Africa REN, a annoncé dans un communiqué du 16 juillet le démarrage de la construction de Walo Storage, une unité de stockage ...

On April 29, 2025, a floating power plant operated by Türkiye's Karpowership began generating electricity using liquefied natural gas (LNG) off the coast of Dakar, Senegal. In collaboration ...
