

Carbon capture and storage (CCS) is no longer just a future concept but is becoming a practical solution helping companies to plan cleaner energy projects and meet climate and sustainability ...

JSW Energy, through its step-down subsidiary JSW Renew Energy Forty Five has signed a 25-year power purchase agreement (PPA) with Bangalore Electricity Supply Company Limited (BESCOM). The agreement is for a grid-connected ...

It paves the way for the joint development of battery storage and renewable energy facilities aimed at enhancing the state's energy resilience and aligning with national sustainability goals.

) Summary Kiribati, a collection of remote archipelagos of mostly low-lying atolls, faces significant risks from natural hazards and an existential risk from rising sea levels. This paper explores ...

NREL's electrochemical storage research ranges from materials discovery and development to advanced electrode design, cell evaluation, system design and development, engineering analysis, and lifetime analysis of ...

India added a record 22 gigawatts (GW) of renewable energy capacity in the first half of 2025, marking a 57 per cent increase from the 14.2 GW installed in the same period last year, ...

The challenges to renewables from transmission, seasonal storage, grid flexibility, demand response, and digitization (among others) are substantial, but the benefits from zero-cost inputs, clean air, and energy security continue ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

5. Next-Gen Energy Storage: The Heartbeat of Renewables Renewable energy is abundant--but not always reliable. The sun sets. The wind dies. Without effective storage, these fluctuations ...

The MoU covers the development of battery energy storage systems (BESS) and renewable energy projects, including solar and hybrid solutions, to strengthen the state's energy security ...

In recent years, the drive toward sustainability and environmental stewardship has led many farmers to explore renewable energy sources for their agricultural operations. Ecofarms, which ...
