Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery at Alliance Redwoods Conference Grounds in Sonoma ...

Rising power demand across the United States is driving strong momentum to create a more reliable and affordable energy future. A new report from the American Gas Association (AGA) ...

In a time of upheaval and change in the energy sector, Battery Energy Storage Systems (BESS) are emerging as a critical piece of equipment to strengthen grid resilience. However, there are ...

The Europe Battery Energy Storage System (BESS) Market is expected to reach USD 15.54 billion in 2025 and grow at a CAGR of 16.06% to reach USD 32.71 billion by 2030. Fluence Energy Inc., Tesla Inc., BYD Co. ...

China's renewable energy infrastructure is not just a climate imperative--it's a blueprint for the future of global energy. For investors, the key lies in aligning with sectors that bridge clean ...

The 2025 heatwave that scorched Europe from June to July was more than a climatic anomaly--it was a stress test for the continent's energy infrastructure. Temperatures exceeding 40°C ...

SAN LEANDRO, Calif., July 24, 2025 -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery at Alliance ...

SAN LEANDRO, Calif., July 24, 2025 /PRNewswire/ -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery ...

The European Industrial Strategy to retain the EU as global centre for automotive & energy storage innovation and competitiveness; bolster Europe's resilience and strategic autonomy in critical industrial sectors and support the ...

Texas has just taken another bold step toward a more reliable and flexible power grid. Last week, Lydian Energy secured \$233 million to build three new lithium-ion battery energy storage ...

The study took into account recent developments in CO2 storage and transport infrastructure in the Netherlands. CO2 storage in depleted gas fields and aquifers Several Dutch projects, such ...

Energy storage solutions are crucial for integrating renewable energy sources like solar and wind, since the nation aims to reduce greenhouse gas emissions by 49% by 2030. Leading Dutch ...
