

In a time of upheaval and change in the energy sector, Battery Energy Storage Systems (BESS) are emerging as a critical piece of equipment to strengthen grid resilience. However, there are ...

Tom Sisto, CEO of US flow battery provider XL Batteries, writes that lithium-ion batteries' dependence on a supply chain controlled almost completely by one country is a risk that could ...

Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery at Alliance Redwoods Conference Grounds in Sonoma ...

Rising power demand across the United States is driving strong momentum to create a more reliable and affordable energy future. A new report from the American Gas Association (AGA) ...

TAIPEI (Taiwan News) -- Deputy Minister of the Interior Ma Shih-yuan (???) said Wednesday that an urban resilience exercise will be carried out from July 15-18. During a radio interview ...

China's renewable energy infrastructure is not just a climate imperative--it's a blueprint for the future of global energy. For investors, the key lies in aligning with sectors that bridge clean ...

SAN LEANDRO, Calif., July 24, 2025 /PRNewswire/ -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery ...

SAN LEANDRO, Calif., July 24, 2025 /PRNewswire/ -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery ...

The successful operation of this energy storage system not only enhances Taiwan's renewable energy integration capabilities but also strengthens its grid resilience. By mitigating ...

The 2025 heatwave that scorched Europe from June to July was more than a climatic anomaly--it was a stress test for the continent's energy infrastructure. Temperatures exceeding 40°C ...

Storing renewable energy in this way makes it possible to better control the peaks and troughs associated with renewable energy generation - charging the batteries when electricity demand ...

Commerce and Industry Minister Piyush Goyal on Thursday (10 July) called on the energy storage sector to curb its reliance on imports from select countries and explore alternative supply ...

This global shock provides an opportunity to consider the direction of energy policy. Should policymakers use

Energy storage for resilience taipei

this moment to accelerate the green energy transition, as requested by ...

Taipei City will conduct the 2025 Urban Resilience (Air Defense) Exercise, a 30-minute practical drill, on July 17, 2025 (Thursday), from 1:30 PM to 2:00 PM. The exercise will include air raid ...

Industrial AI: Predicting with Certainty Technology, particularly AI, is now playing a pivotal role in helping utilities adapt. From asset investment planning to predictive maintenance, Industrial AI ...

Energy and business resilience In the Food Security Report, Theme 3 focuses on stability and resilience across the food supply chain, and energy and business resilience are highlighted as ...

Despite the influx of newer and more energy-dense battery technologies, the lead acid battery market remains a cornerstone of the global energy storage ecosystem due to its affordability, ...

Japanese heavy industry firm Kanadevia announced a partnership with Taiwan's Liang Lian Industries to jointly construct spherical liquefied CO₂ storage tanks on July 22. The collaboration targets carbon storage projects in Southeast Asia, ...

The growing frequency and severity of extreme events, both natural and human-induced, have heightened concerns about the resilience of power systems. Enhancing the resilience of power ...

Lin Mei-ling (???), chief executive officer of Tun Green Power Co, an affiliate of TEWC, said the company's solar energy storage equipment can store 10 kilowatt-hours (kWh) of electricity. ...
