

The global energy storage battery cell market experienced unprecedented growth in H1 2025, with shipments exceeding 250 GWh--a 100% year-over-year increase driven by coordinated policy ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Recently, a consortium led by POWERCHINA Northeast Electric Power Engineering Co., Ltd. signed an EPC turnkey contract for the 200MW AC mountainous photovoltaic project with ...

Bihar Green Energy Policy: The Bihar government has signed four significant MoUs worth INR5,337 crore to develop renewable energy projects totaling 2,357MW, promoting clean energy and ...

- The U.S. renewable energy sector faces a pivotal moment driven by the Inflation Reduction Act (IRA), technological innovation, and surging clean power demand. - IRA tax credits for ...

That's where long duration energy storage (LDES) comes in, and why Google's recent partnership with Energy Dome signals a pivotal moment for the future of clean energy. The Limitations of Short-Term Storage Lithium-ion batteries ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

China's battery-grade lithium carbonate prices rebound to 72,900 yuan/ton amid policy shifts and demand surge. Explore drivers behind the 20% monthly gain and energy storage market impacts.

Other energy storage policy recommendations made by OLADE included reserve capacity payments, auctions for renewables-plus-storage sites, and dynamic tariffs or net billing to encourage residential and commercial energy storage ...

A total of 27 projects was awarded 34.6 billion yen in subsidies through METI's FY2024 program for supporting the expansion of renewable energy through introduction of energy storage, Sustainable Open Innovation ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...
