

Bulgarian energy storage and solar developer Sunotec has acquired the Lazas Solar Park utility-scale solar-plus-storage site, and Bristol-based Aura announced the sale of its ready-to-build ...

Rethinking Safety in Battery Energy Storage Systems A Closer Look at Today's Standards La adopci&#243;n de sistemas de almacenamiento de energ&#237;a en bater&#237;as (BESS) siempre ha estado ...

By strategically combining diverse storage technologies, these systems harness the strengths of each component while overcoming their limitations, resulting in energy storage solutions that ...

The visit focused on XIHO Energy's core product line: the main product customized battery pack covers multi-specification integrated systems such as home energy storage and industrial and ...

Tigi is an domain of renewable thermal energy generation and storage for large heat users - commercial and industrial. Cowa Thermal Solutions develops thermal energy storage technology based on phase-change materials.

European renewable energy provider SUNOTEC has finalized the acquisition of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This transaction ...

NXP launched BMx7318, a lithium-ion battery cell controller IC. It is an analog front-end product made to monitor battery cells in electric cars and energy storage systems (ESS). It can ...

Energy modernization projects in nine member states of the European Union will receive a total of EUR 3.66 billion from the Modernisation Fund, in the largest disbursement to date from the ...

Both air-cooled and liquid-cooled energy storage systems (ESS) are widely adopted across commercial, industrial, and utility-scale applications. But their performance, operational cost, ...

Challenges and future outlook Despite the progress in renewable energy, Latvia faces challenges in fully transitioning to sustainable energy sources. The need for modernizing energy infrastructure and ensuring ...
