

Just five days earlier, Anhui-based Gotion unveiled plans to set up a \$2 billion EV lithium battery manufacturing plant in Illinois, the United States. Located in the city of Manteno, the facility is expected to produce 10 gigawatt ...

Integrating these elements into your business plan development will highlight your manufacturing strategy and align with steps for developing a successful plan for lithium ion ...

Discover how custom 12V lithium battery factories are advancing with solid-state technology, AI-powered BMS, IoT, digital twins, and robotic automation. Powering Tomorrow: Solid-State, AI ...

Automakers and cell producers have recently doubled down on timelines for the commercial production of solid-state batteries. Some of the car giants jostling for pole position in this push ...

Agility, transparency and performance will. Battery Smart Manufacturing enables manufacturers to industrialize faster, respond to change and build a secure, scalable foundation for long-term ...

LG Energy Solution, Korea's leading battery maker, has won another patent lawsuit in Germany against China's Sunwoda Group, a patent management firm representing LG Energy Solution ...

Innovation is reshaping the custom 12V lithium-ion battery landscape, with breakthroughs in solid-state technology, AI-enabled BMS, and advanced manufacturing methods. Here's how today's ...

BYD provides blade batteries for Xiaomi's SU7 and YU7. Among them, both the standard and Pro versions of the YU7 are equipped with Fudi batteries. The tacit understanding between the two ...

As Japan seeks to strengthen its digital and manufacturing sectors, India's technological prowess presents a golden opportunity. With strategic investments and workforce collaborations, both ...

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power. This project is scheduled for grid readiness ...

As EV production evolves, battery safety and efficiency take center stage. Discover how augmented reality and laser projection, smart tools, and real-time tracking are transforming ...

Battery Manufacturing Battery Manufacturing LEAD's Yanqing Wang on AI, Digital Twins & the Future of Battery Manufacturing Wuxi LEAD's chairman discusses how AI and digital twins are revolutionizing battery production, and ...

Going digital battery manufacturing

LEAD's Yanqing Wang on AI, Digital Twins & the Future of Battery Manufacturing Wuxi LEAD's chairman discusses how AI and digital twins are revolutionizing battery production, and how the company is adapting to ...

Battery manufacturers today face a clear imperative: scale production intelligently, not just rapidly. Market demand is rising, but so are expectations for quality, flexibility and resilience. Leading ...
