

Mercom India is back with the fifth edition of its Renewables Summit 2025, scheduled to take place on July 24-25, 2025, at the Hyatt Regency in New Delhi. As India pursues its renewable ...

India's Battery Energy Storage System (BESS) market is projected to grow at 22% CAGR (2024-2030) driven by renewable integration and grid stability needs. This step-by-step guide covers ...

Utility-scale battery storage is emerging as a critical solution to address to grid stability challenges, including peak load management and dispatch reliability, while enabling greater ...

Noida-based wind energy solutions company Inox Wind 's board of directors has approved raising INR12.5 billion (~\$145.16 million) through the issuance of equity shares worth INR10 (~\$0.12) per ...

At a recent C& I Clean Energy Meet hosted by Mercom India in Mumbai, industry experts shared insights on how commercial and industrial (C& I) businesses can save on power bills by ...

The Green Climate Fund (GCF) has approved \$200 million (~INR17.07 billion) for a new program led by the Asian Development Bank (ADB) to enhance large-scale public and private investments ...

Godi Energy Funding: \$10M GODI is a first-of-its-kind company based in India that is innovating across all verticals of energy storage technology. GODI has India's largest R& D house with a large team of scientists and ...

Arjun Joshi, Staff reporter at Mercom India More articles from Arjun Joshi. Arjun Joshi is a staff reporter at Mercom India. Before joining Mercom, he worked as a technical writer for enterprise resource software companies ...

Battery energy storage is critical for diversifying India's energy mix and ensuring clean power is available when demand is highest. IndiGrid has been a trusted partner to IFC in advancing ...

Offshore wind energy capacity additions reached 8 GW at the end of 2024, a 26% decrease from the previous year, according to a report by the Global Wind Energy Council. By the end of ...

The United States Senate has released an updated draft of the budget reconciliation proposal, eliminating the Clean Electricity Investment Credit under Section 48E and the Clean Electricity ...

SJVN has invited bids to set up rooftop solar systems with a cumulative capacity of 1 MW at the Civil Secretariat complex in Itanagar, Arunachal Pradesh, and its adjacent areas under the PM ...

India microgrid energy storage

Solar water pump and motor manufacturer Shakti Pumps has raised INR2.92 billion (~\$34.07 million) through a qualified institutions placement (QIP) of shares. The QIP issue was priced at ...

The West Bengal Renewable Energy Development Agency (WBREDA) has issued a request for proposal to set up rooftop solar projects with a cumulative capacity of 10 MW across multiple districts in the state.

Answer: Energy storage, primarily through battery energy storage systems (BESS), is crucial in a microgrid because it helps manage the intermittency of renewable sources like solar and wind. ...

The intelligent modular microgrid market is experiencing robust growth, driven by increasing demand for reliable and resilient power solutions, particularly in remote areas and regions with ...

China Energy Engineering Corporation's (CEEC) auction for 25 GWh of lithium-iron-phosphate (LFP) battery systems resulted in a record-low quoted tariff of CNY 0.37/Wh (~\$0.051), a 30% ...

The Telangana Renewable Energy Development Corporation (TGREDCO) has invited bids to set up rooftop solar power projects with a cumulative capacity of 80.69 MW in 80 villages. Bids ...

On July 9 (local time), Solar & Storage Live Vietnam 2025 officially opened in Ho Chi Minh City. Hoenergy made a striking appearance with its comprehensive lineup of commercial and ...

India microgrid market has witnessed major growth due to increasing energy demands from urbanization and industrialization. The country is highly focused on the immediate requirement ...

India microgrid energy storage
