

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

Authors: Kristijan Trajchov and Erlida Mulaku The thermal power plants REK Bitola and REK Oslomej In North Macedonia remain the main producers of electricity, making the country one ...

With rising electricity prices, several Kosovo citizens and business owners have benefited from government subsidies for renewable energy, incentivising investment in solar energy systems, ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

This trend is further amplified by the growing adoption of energy storage systems (ESS) for grid stabilization and renewable energy integration. The market is witnessing significant ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Kosovo plans to auction a 100 MW solar power plant with 20 MWh of battery storage in 2025 as part of its strategy to increase renewable energy capacity. This initiative is supported by the ...

The exploration of phenolphthalein's role in energy dissipative systems is in its early stages, with a growing market potential as energy efficiency becomes increasingly crucial. The technology is still emerging, with varying levels of ...

The Low-carbon and Smart-energy Innovation Park Solutions market is experiencing robust growth, driven by increasing global awareness of climate change and the urgent need for ...

The economies of the Western Balkans have set ambitious climate targets, aiming to reach carbon neutrality by 2050. To succeed, the region needs to transform its energy sector, which ...

The all-iron flow battery market is poised for significant growth, driven by increasing demand for sustainable

and long-duration energy storage solutions. While precise market size figures for ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...

The global transition to clean energy necessitates integrated solutions that ensure both environmental sustainability and energy security. This paper proposes a scenario-based modeling framework for urban hybrid energy systems ...

Një nga trendet më të qarta shfaqet në rritje të fortë e shpenzimeve për tranzicionet e energjisë, veçanërisht në pjesë të vitet e fundit. Kështu kanë ndikuar paketat e rimbjes pas ...

The Lithium-Ion Hybrid Capacitor (LIHC) market is poised for significant growth, driven by increasing demand for energy storage solutions in diverse sectors. The market's expansion is ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...

LuxDev is supporting the Ministry of Economy in digitalising the monitoring and evaluation system to guide Kosovo's Energy Strategy. A specialised company will soon be commissioned to ...

Kosovo energy storage research and development
