

When the Grid Fails, Your Microgrid Becomes Your Lifeline With power outages in the US skyrocketing by 64% since 2000 (US EIA), facilities ranging from Texas hospitals to California factories are facing expensive downtime. Enter ...

With demand for digital services booming across Europe, industry leaders are calling for a radical shift in how data centres are treated. Moving beyond subsidies, executives from Digital Realty ...

The collaboration includes Minesto, Capture Energy (a microgrid technology firm), SEV (the Faroese utility), and IVL Swedish Environmental Research Institute. The initiative aims to ...

Minesto, a Swedish tidal energy developer, is leading a consortium of four that has been awarded a SEK 25 million (approximately \$2.6 million) grant funding from the Swedish Energy Agency ...

Imagine a hurricane knocks out regional power infrastructure - island mode controllers become the unsung heroes. These intelligent systems enable microgrids to autonomously operate ...

Island microgrids are essential for the exploitation and utilization of offshore renewable energy resources. However, voltage regulation and accurate reactive power sharing remain significant ...

After the massive storm, it took roughly 11 months to restore power across the island. The electrical grid went private in June 2021 in an apparent effort to resolve the problem of ...

Andover, MA: Opening a power distribution lab for AI data center research and a microgrid lab for real-world testing. Columbia, MO: Expanding plant space for increased production of circuit breakers. Fairfield, OH: ...

Off grid investment: New study reveals microgrid efficiency and cost benefits As power challenges impact Europe's AI data centre hotspots, adopting microgrid independent power can be a ...

The deal for CATL's EnerX BESS units would comprise roughly half the planned 4.4GWh energy storage capacity at Vanda Solar & Battery Project, which is being developed for eventual ...

By integrating Minesto's tidal power plants with Capture Energy's systems, the project is said to seek to access the global market for autonomous and island-mode grid solutions. SEV, an ...

The East Asia Utilities Corporation (EAUC) power plant in Cebu, Visayas, Philippines. Image: Aboitiz Power. Integrated energy utility Aboitiz Power has kicked off a 30MW hybrid battery ...

Malta island microgrid power
