

India aims to reach a battery energy storage capacity of 74 GW and 50 GW of pumped hydro by 2032, as part of its green energy goals. Union Power Minister Manohar Lal Khattar announces the initiative amid rising renewable energy ...

This achievement takes NLCIL a step closer to its strategic vision of achieving 10 GW renewable capacity by 2030. Prostarm Info Systems, a Mumbai-based power infrastructure developer, is ...

In this guide, we'll highlight the top 10 BESS manufacturers in India, showcasing the leaders in innovation, technology, and performance. Among them is SunGarner, a rising star in the ...

On July 23, Desay Battery, a prominent global supplier of energy storage solutions, held a major production launch event in Changsha, China. The occasion highlighted a new lineup of safety ...

India has reached a major climate milestone by achieving 50 % of its installed power generation capacity from non-fossil fuel sources, five years ahead of its 2030 target under the Paris Agreement ...

Over 20 GWh of planned energy storage cell capacity for 2028 have been cancelled so far this year, according to the Q2 2025 reports on energy storage supply, technology, policy and ...

Mumbai-based Prostarm Info Systems Ltd has announced plans to establish a state-of-the-art 1.2 GWh Battery Energy Storage System (BESS) manufacturing facility at Reliance MET City, ...

Exide Industries is strategically focusing on both its lead-acid battery business and lithium-ion segment to lead energy storage. Commercial production at its lithium-ion cell manufacturing ...

Utility-scale battery storage is emerging as a critical solution to address to grid stability challenges, including peak load management and dispatch reliability, while enabling greater ...

Godi Energy Funding: \$10M GODI is a first-of-its-kind company based in India that is innovating across all verticals of energy storage technology. GODI has India's largest R& D house with a large team of scientists and ...

DMR Hydroengineering & Infrastructures, in partnership with Germany-based Fichtner, has bagged the consultancy contract for preparing the Detailed Project Report (DPR) for the Aruna Pumped Storage Project (PSP) in Maharashtra. ...

Exide Industries is strategically focusing on both its lead-acid battery business and lithium-ion segment to lead

Manufacturing energy storage india

energy storage. Commercial production at its lithium-ion cell manufacturing facility is expected to commence this fiscal year. ...

Highlighting the Government of India's focused push for a resilient and self-reliant renewable energy sector, Union Minister for New & Renewable Energy Shri Pralhad Joshi outlined five key priorities driving India's clean energy transition: ...

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...

Meanwhile, large-scale plans are underway. The Solar Energy Corporation of India (SECI) has invited bids for 2,000 MW of solar projects with co-located BESS, and Maharashtra's MSEDCL ...
