

Strategic licensing agreement aims to cut costs, expand global reach, and challenge lithium-ion's dominance in long-duration energy storage Invinity Energy Systems is doubling down on cost ...

From the perspective of PCB design and manufacturing, this article discusses the key elements in energy storage PCB design and manufacturing, combined with PCB design specifications to ...

DuBOIS -- Penn State DuBois and Metaltech Inc., a local leader in powdered metal manufacturing, are teaming up on a new research initiative focused on next-generation energy ...

An E2E OEM's energy value chain covers equipment and materials, engineering, and the business expertise to align with a manufacturing customer's requirements--including space usage, energy fluctuations, compliance, and ...

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in Energy Dome. Energy Dome's CO₂ Battery stores clean energy for 8-24 hours, ...

The global low voltage formed foil market is experiencing robust growth, driven by the increasing demand for energy-efficient electronics across diverse sectors. The market's expansion is ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

The Prime Minister of Burkina Faso Rimalba Jean Emmanuel Ouédraogo hosted energy ministers from Niger, Djibouti, Chad, and Mauritania today, alongside a Malian representative, ...

The government of Burkina Faso has formalized a public-private partnership with Netherlands-based developer Gutami Holding for a 150 MW solar project with 50 MWh of accompanying battery energy ...

On July 23, Desay Battery, a prominent global supplier of energy storage solutions, held a major production launch event in Changsha, China. The occasion highlighted a new lineup of safety ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

In the face of volatile energy pricing and grid instability, Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on ...

The solar energy storage manufacturing sector is undergoing a transformative phase driven by technological innovations and a focus on efficiency. Recent advancements in related fields, ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...

The global Lithium-ion Battery Cell Manufacturing Equipment market is experiencing robust growth, driven by the burgeoning electric vehicle (EV) industry and the increasing demand for ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

TES startups leverage technologies such as phase change materials, sensible heat storage and thermal batteries to create energy storages. ETC specializes in thermal storage, energetic efficiency, industrial wastes ...

Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage systems (BESS) to serve a growing ...

Explore how ACE Battery leads in sustainable energy storage with green manufacturing, global certifications, and customized ESS built for long-term impact. As the global demand for clean ...
