

The Clean Electricity Investment Tax Credit under Section 48E of the Internal Revenue Code (IRC) represents a pivotal incentive for advancing zero-emission electricity generation and ...

Power Conversion System (PCS) serves as the "engine" of the energy transition, offering real/reactive power regulation, grid-connected/off-grid switching, and energy storage integration.

The Norwegian Food Safety Authority has overarching responsibility for regulations relating to the production, processing, storage, import, and sale of organic agricultural products, and has delegated the responsibility for ...

Struggling to understand how Energy Storage Systems (ESS) help maintain grid stability? This in-depth, easy-to-follow blog explores how ESS regulate frequency and manage peak loads, ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation ...

Recently, the German Federal Court of Justice (BGH) issued a landmark ruling confirming that local grid operators have the right to charge grid connection fees (BKZ) for energy storage ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation phases ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...

Foreign Direct Investment (FDI) Regulation in Norway: Key Legal Considerations for Foreign Investors
Norway has long been recognised as a stable and attractive destination for foreign ...

Glint Solar has added a new battery energy storage noise-modelling feature to its utility-scale planning software platform. The new tool is meant to support project developers during early ...

The Trudvang carbon capture and storage (CCS) project, operated by Vår Energi in partnership with Storegga and INPEX Idemitsu Norge, has successfully passed its feasibility gate (DG1), ...

Norway energy storage regulations

The Northern Lights (NL) project is a major initiative for carbon capture and storage in Norway. The aim of the project is to capture CO₂ from industrial sources, transport it to an onshore terminal on the west coast of ...

This paper establishes a joint clearing model for energy storage participation in electricity and frequency regulation markets, optimizing power resource allocation through market-oriented ...

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, ...

Norwegian energy company Equinor said on Wednesday that its giant offshore wind project in New York -- once halted by the US administration -- had lost nearly \$1bn in value following ...
