

Bihar Green Energy Policy: The Bihar government has signed four significant MoUs worth INR5,337 crore to develop renewable energy projects totaling 2,357MW, promoting clean energy and ...

By 2035, system costs could rise in both geographies, renewable energy adoption may stall in the United States, and solar and wind deployment could soften in the EU. The analysis also suggests that higher tariffs would increase the share of ...

1 Texas is seeing a spike in the cancellation of renewable energy projects and batteries over the past two months due to Trump's tariffs and uncertainty regarding the future of their tax credits.

China's renewable energy storage sector is undergoing a seismic shift, driven by urgent decarbonization targets and the rapid integration of intermittent renewables like wind and solar.

The solar park will generate more than 53 gigawatt-hours of renewable electricity annually, supplying power to around 3,000 Vodafone mobile towers. Over its planned 30-year lifespan, ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

The International Energy Agency (IEA) projects that achieving a 50% reduction in emissions by 2050 will require a comprehensive energy transition, in which renewable energy will play a ...

NTPC Green Energy Limited (NGEL), a subsidiary of NTPC Limited, has entered into a Memorandum of Understanding (MoU) with Bihar State Power Generation Company Limited (BSPGCL) to jointly develop battery energy storage ...

The addition of 582 gigawatts of renewable capacity in 2024 led to significant cost savings, avoiding fossil fuel use valued at about USD 57 billion. Notably, 91% of new renewable power ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

In a landmark move to position Bihar as a green energy leader, the state government formally launched the Bihar Policy of New and Renewable Energy Sources 2025 and Bihar Policy for Pumped Storage Project 2025 at a high ...

Renewable energy storage fonafote

In recent years, the drive toward sustainability and environmental stewardship has led many farmers to explore renewable energy sources for their agricultural operations. Ecofarms, which ...

Hydrogen storage is emerging as a long-duration solution for renewable energy systems, offering grid stability despite lower efficiency and higher costs. The Oxford Institute for Energy Studies ...
