

The Department of Electricity and Energy (DEE) of South Africa has selected six solar PV projects with a combined capacity of 1,290 MW as preferred bidders in the seventh bid window (BW7) ...

News on renewable energy growth across Sub-Saharan Africa, from solar PV and wind farms to hydropower and hydrogen initiatives. Stay informed on new project developments, regulatory frameworks, and financing deals ...

Positioning solar PV as the best, least-cost energy option to deliver a sustainable South Africa through strategic influencing at government level. Producing thought leadership, sharing best practice and disseminating robust ...

The polycrystalline solar panel market is experiencing robust growth, driven by increasing demand for renewable energy sources and supportive government policies worldwide. The market's ...

South Africa's private renewable energy market is poised for substantial growth, with projected private procurement market sizes indicating a significant increase in solar PV and wind power capacity by 2030.

Following a re-allocation of megawatts under the latest round of South Africa's flagship renewables procurement initiative, the Department of Electricity and Energy has appointed an ...

The Koruson 2 cluster forms part of a broader renewable platform aimed at enabling carbon neutrality and supporting market liberalization in South Africa's power sector. The company plans to develop 3-5 GW of wind, solar and ...

South Africa Turns Sunlight Into Savings: Major Solar Energy Projects Unveiled In an exciting development for renewable energy in South Africa, six new solar photovoltaic (PV) projects ...

With the anticipated completion of the Wolf Wind and Garob Wind Projects, JA Solar will further cement its contribution to South Africa's renewable energy objectives, paving the way for a ...

As the demand for eco-conscious power solutions rises, inverter South Africa are increasingly seen as vital components in the country's transition to renewable energy. Their ...

Large renewable procurement in South Africa and ambitious hydrogen production plans in Egypt are expected to bring huge amounts of privately-owned, utility-scale solar capacity on line in the next three years. ...

The significant progress reported by the West and Eastern Africa power pools augurs well for the increased

international trading that is increasingly seen as essential to draw in deeper investment in the continent's electricity ...

The Mailo solar PV IPP is due to be expanded from its initial 25MW to 100MW, with work on a 50MW second phase due to start soon. Developer Solarcentury Africa is one of the first movers in the Southern African Power ...

According to the Electricity Regulation Act, 2006 ("the ERA"), the National Energy Regulator of South Africa (NERSA) is vested with the statutory authority to formulate rules governing the ...

Facing chronic power outages, South African households are increasingly turning to solar self-generation, jeopardizing Eskom's pricing model and widening energy-access inequalities ...

Gaia Renewables 1 has completed its R200m acquisition of stakes in two renewable energy plants. The transaction includes the sale of arguably South Africa's first solar independent ...

Energy storage news South Africa: Globeleq's Red Sands battery energy storage project eyes construction after financial close Construction at the Red Sands battery energy storage system (Bess) plant in South Africa's ...

The report provides data and analysis on the historic and forecasts solar PV capacity and generation, major active and upcoming plants, market size, and market drivers and challenges for thirteen key solar PV market countries - ...

JinkoSolar, the world's largest solar panel producer by shipments, is pressing ahead with overseas expansion plans with a strategic focus on Africa, to secure a leading position in both the solar as well as energy storage sectors.

News Centre Issue 530 - 22 July 2025 South Africa sets out private transmission procurement plans South Africa Power Issue 530 - 21 July 2025 South Africa: AIIM's Ideas Fund sells stakes in three renewable energy IPP ...

The government of South Africa has given approval to another six solar projects. This was during South Africa reipppp bid window 7 better known as Renewable Energy Independent Power ...
