

Geographic expansion, especially in emerging markets with significant solar energy potential, represents a key strategic imperative for industry players. The market will likely see further ...

Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in pledged ...

The Fraunhofer Institute for Solar Energy Systems ISE in Freiburg, Germany is the largest solar research institute in Europe. With a staff of about 1 400, we are committed to promoting a sustainable, economic, secure and ...

The solar grade high-purity polysilicon market is experiencing robust growth, driven by the escalating global demand for renewable energy sources and the increasing adoption of solar ...

Despite these challenges, the long-term outlook for the ocean current energy electric generator market remains positive. The industry is witnessing increasing investments in research and ...

The organic solar cells (OSCs) market is poised for substantial growth, driven by increasing demand for flexible, lightweight, and cost-effective solar energy solutions. While precise ...

The global metal permanent magnet material market is experiencing robust growth, driven by the increasing demand for electric vehicles (EVs), renewable energy technologies, and advanced ...

Bayer and MSU Green Energy signed a strategic agreement for the supply of solar energy at the Mar&#237;a Eugenia plant, located in Rojas, Buenos Aires province. Thanks to this contract--which ...

The Ultra Highly Reflective Black Grid Backsheet market for photovoltaics is experiencing robust growth, driven by the increasing demand for higher efficiency solar panels and improved aesthetic appeal. This market segment, while ...

By source, wind power led with 58.8% of Argentina's renewable energy market share in 2024, while solar is the fastest-growing source at an 8.0% CAGR to 2030. By grid connection, on-grid projects accounted for 63% of ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...
