

The integration of Internet of Things (IoT) technology with sustainable energy solutions has enabled the development of innovative and eco-friendly systems for smart living. This paper ...

In essence, feasibility studies lay a solid foundation for successful energy projects in Somaliland by allowing developers to make informed decisions, maximize benefits, and implement projects...

Renewable Energy Vision Citing Somaliland's abundant solar and wind potential, they explored strategies for attracting investment in green energy as part of the country's long-term energy ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

The Ministry of Energy and Minerals showcased significant strides in developing Somaliland's energy policy, a 10-year strategic plan, and the Somaliland Energy Law. These initiatives aim ...

Hybrid Energy Systems: Combine solar power with battery storage or micro-grids to ensure energy reliability.
Training Programs: Establish agricultural tech training hubs to build local ...

3 On the fourth day of his working visit to Qatar, the President of the Republic of Somaliland, Abdirahman Mohamed Abdullahi (Irro), led a high-level delegation through a series of ...

Research areas suitable for publication in Renewables include those containing chemistry related to: o Electrochemical energy storage & batteries o CO₂ recovery & ...

The facility uses only solar energy for the on-site production of green hydrogen and will be used for hydrogen-powered trucks, port equipment, railway applications, and small ships. Cleanenergy ...

A Land Rich in Untapped Resources Beneath the rocky plateaus and vast basins of Somaliland lies a geological treasure trove. The country's diverse mineral resources include high-value ...

The chapter mainly introduces the development background and international development status of SSP. Energy crisis and global climate change are major issues that affect global sustainable ...

To improve the energy supply, more photovoltaic power plants are being built in Somaliland to supplement the existing generators, in addition to other measures. But this development poses ...
