

An off-grid solar system's size depends on factors such as your daily energy consumption, local sunlight availability, chosen equipment, the appliances that you're trying to run, and system configuration.

JSW Energy, through its step-down subsidiary JSW Renew Energy Forty Five has signed a 25-year power purchase agreement (PPA) with Bangalore Electricity Supply Company Limited (BESCOM). The agreement is for a grid-connected ...

A solar battery allows you to store electricity produced by your solar panels and use it later or, in some cases, sell it back to the grid to make a few quid - but they're not cheap. Read on to see if it's worth getting a solar ...

A solar irradiation assessment conducted by Sedam-ING concluded that the location is highly suitable for a 200 MW solar facility. The plant is expected to generate approximately 438 GWh ...

Battery storage has become a critical component in modern solar PV systems, especially for enhancing energy reliability, self-consumption, and grid independence. Whether for residential, ...

Montenegro's state-owned power utility EPCG plans to build the Stedim solar power plant near Nikšić, with an installed capacity of approximately 137 MW. Once operational, the plant is ...

India is witnessing a dynamic shift in its renewable energy narrative, where standalone solar is gradually giving way to more advanced, solar-plus-storage models. The government's recent INR 5,400 crore (\$625 million) allocation to ...

The Government of Montenegro, located in the Western Balkans, launched its first state-backed solar auction as part of its efforts to align with EU energy goals planned to offer market ...

Visit LFF Technology for all of your Home Energy Solar, Storage and Charging solutions! With our innovative products, you can use the sun's renewable energy, protect yourself from ...

Montenegro has set a ceiling price of EUR65 (\$76.11)/MWh for its first solar auction, which will offer 12-year contracts for difference (CfD) for up to 250 MW of capacity. The auction is...

Montenegro's Ministry of Energy and Mining has launched the country's first renewable energy auction, targeting 250 MW of solar power generation, it was announced today.

The rise of solar-plus-storage is no longer just a technical trend--it's now a major supply chain story. Tesla, BYD and CATL are not only producing batteries to back up solar power, but also ...
