

With plans for sweeping new tariffs on solar imports, the Trump administration is reigniting trade tensions that could drive up solar prices and reshape the clean energy landscape. Here's what it means for the industry.

In the realm of renewable energy, South Korea is making waves with its innovative floating solar panel project. Nestled in the picturesque Hapcheon Reservoir, 92,000 solar panels are designed to resemble blooming plum ...

SCG has new solar projects in the pipeline, totaling 400-500MW, which include solar farms, floating solar farms, and carports. The decline in solar-related technology costs is also driving individuals to install rooftop solar ...

This year, we supported the BCHF with 28 units of high-performance 625W solar modules, which expected to generate approximately 25MWh of clean electricity per year, helping to energize ...

US solar manufacturers have petitioned for anti-dumping tariffs on Indian imports, alleging unfair trade practices. The move follows similar actions against Southeast Asia as Washington ...

BEIJING, July 25 (Xinhua) -- A Chinese private satellite manufacturer has engineered an innovative rollable, fully flexible solar array designed to solve the long-standing challenge of oversized satellites exceeding rocket fairing ...

To encourage local development in the solar power sector, the Thai government plans to support mass production of a homegrown solar inverter developed by a local electrician. The initial ...

TSM-DE06X.05 (II) is a panel from Chinese brand Trina Solar. Designed with aesthetics in mind, it is a good module for residential installations. The panel combines great production levels with high reliability. Features: 360 ...

Compatible with high-power panels up to 750W, including bifacial and G12 formats, the S1500 is specifically designed for Thailand's preference for large-scale solar panels, maximizing energy ...

Thailand's solar energy capacity is rapidly expanding. The country has added 1.6 GW of solar capacity in just the first nine months of 2023, bringing the total solar capacity to 3.05 GW. This ...

The United States (U.S.) is Thailand's largest export market for solar cell products, accounting for more than half of the export market share in recent years, but such exports are now facing challenges from the U.S. investigation ...

Solar panels thailand

It will generate around 7,750 MWh of clean energy per year, making it the largest solar carpark project to date in Thailand. The solar roof carpark ultimately supports the customer to save energy cost and fulfill their ...

Lighting Up Thailand's Nights with Floating Solar Panels! ?? Hey kids! Have you ever thought about putting solar panels on water? ? Well, in a place called Ubon Ratchathani in northeastern ...

Download this stock image: Bangkok, Thailand. 04th July, 2025. Visitors seen inspect solar panels during the Asia Sustainable Energy Week 2025 at the Queen Sirikit National ...

Panasonic EverVolt solar panels are backed by over 40 years of innovation and experience in the industry. Japanese engineers have always been implementing cutting-edge technologies into their solar panels -- Panasonic ...

Exacerbating these issues, the same source reports that inflated basic commodity prices and disruptions to internet and electricity from the Thai side have pushed residents to depend on costly solar panels and Starlink internet. "Ordinary ...

Washington, DC -- Confronting market manipulation driven by companies in Indonesia, Laos, and India, U.S. solar manufacturers today filed new antidumping and countervailing duty (AD/CVD) ...

After Cambodia, Malaysia, Vietnam and Thailand, it is now solar cell and module exports from India, Laos and Indonesia that are on the firing line of a fresh AASMTC AD/CVD petition. ...

SolarEdge, a global provider of smart energy solutions, presented a range of new technologies at ASIA Sustainable Energy Week (ASEW) 2025 in Bangkok, aligning with Thailand's rapidly ...

The quiet hum of solar panel factories in the Indonesian island city of Batam belies the escalating trade tensions between Washington and Beijing. To American trade officials, the activity signals possible tariff evasion, as Chinese ...

With support from the Revenue Department of Thailand, you can now claim up to ?200,000 in personal income tax deductions by installing a solar system at your residence! Start today -- ...

Claim the 30% tax credit before it is gone What the new solar trade case means for US Solar The solar industry has been dealing with trade cases for well over a decade and has always found a way to adapt and grow in the face of the ...

Auxin Solar (Auxin) is asking the US Court of International Trade (CIT) to overturn a moratorium that allowed certain solar panels and modules from Southeast Asia to enter the US duty-free ...

Solar panels thailand

Solar panels and solar-powered lights on sale at a home improvement centre in Bangkok, Thailand, on 22 April 2025. The US on 21 April announced its intention to impose tariffs on ...
