

The aim of this work is to study the effects of utilizing cleaner technologies in district heating networks and assess their contribution to the energy transition within densely ...

The transaction technical assistance (TA) facility will provide project preparation support to a series of ensuing projects, including (i) Federated States of Micronesia Climate ...

GSE Solutions has developed a hydrogen fuel cell generation and storage plant simulation model to support NuScale Power's hydrogen simulator project. The initiative is part of the broader ...

The Fari Islands community continues its trajectory to minimise environmental impact across all operations. In partnership with Swimsol, the Maldives' leading solar energy provider and global ...

A four-island archipelago in the Maldives is to expand its solar power developments to provide clean energy for half of its requirements this year. 2025 will see the destination bringing the ...

In addition, "the Canary Islands Energy Transition Plan includes a decarbonization strategy that implies an extensive use of land, speaks of solar and wind farms, which could alter the ...

In a significant stride for its renewable energy ambitions, the destination is set to triple its photovoltaic (PV) capacity in 2025, bringing total solar output to 6.4 megawatt-peak (MWp).

Announcing significant growth in the islands' renewable energy framework and photovoltaic (PV) sources, 2025 will see the destination reaching new heights in clean energy contributions, with ...

The Redstone Concentrated Solar Thermal Power Project is expected to begin trial operations soon, eventually generating enough energy to power 200,000 households in South Africa, and thereby greatly alleviating the ...

Patina Maldives plans to power its entire resort with solar energy. The resort is developing nearly 3 MW of capacity, including 980 kW of solar panels on the eastern part of the island and...

Ebeye in the Marshall Islands is a small, bustling island that offers a glimpse into local life, but it's not for everyone. Pros include the chance to experience authentic Marshallese culture and the friendly vibe of the locals. ...
