

Solar tracker system plus multi MW BESS project

DESRI has started construction on the Santa Teresa Solar and Storage project in Doña Ana County, New Mexico, for El Paso Electric (EPE). The 150-MW solar, 600-MWh storage project ...

The construction of a 43 MWh BESS system is part of the EUR61.5 million non-recourse financing obtained by Recurrent Energy, which also includes a 124 MW solar portfolio. Enertis Applus+ ...

From a potential 100 individual solutions considered, it now plans to roll out 10 synchronous condensers to support system strength, inertia and system voltage, and 5 GW of grid-forming ...

SN Aboitiz Power Group (SNAP) is taking the next step toward a more diversified renewable energy (RE) portfolio, expanding beyond hydropower through the development of new solar ...

Complementing the BESS, the gas-fired facility is designed to deliver up to 300 MW of fast-start, on-demand electricity, supporting system reliability during periods of volatility or shortfalls in ...

Solar panels with a total capacity of 400 MWp on structures equipped with a single-axis solar tracker system will be installed at Lazas Solar Park, which enables the angle of solar panels to ...

IndiGrid's operational portfolio includes transmission (pictured) and solar PV, while the company recently brought online its first grid-scale BESS. Image: IndiGrid via X. The International ...

Netherland-based Gutami Holding BV, a global developer and investor, and its local partner have signed a Public-Private Partnership (PPP) with the Government of Burkina Faso and a PPA ...

Zelestra, a multi-technology renewable energy developer, today announced that its commercial & industrial (C& I) portfolio in India has reached over 122 MW through wind-solar-battery energy ...

International Finance Corporation (IFC) and IndiGrid have partnered to develop a 180 MW/360 MWh standalone battery energy storage system (BESS) project in Gujarat. The project is ...

The portfolio comprises three solar and battery energy storage systems (BESS) projects, one of which is the 115MW co-located Bramley Project, located in the southern English county of ...

Ratul Puri's energy company Hindustan Power, a leading integrated power generation company, has been awarded a 100 MW inter-state transmission system (ISTS)-connected solar power ...

Solar tracker system plus multi MW BESS project

Hindustan Power has received the letter of award (LoA) from SJVN Limited for developing a 100 MW inter-state transmission system connected solar power project with a 200 MWh battery ...

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS). The country as ...
