

To achieve better and longer lasting batteries for electric vehicles, EU-funded researchers are developing technology that enables batteries to quickly detect damage and repair themselves.

Lightweight and effective, the solution supports global EV adoption by addressing critical safety concerns. It also reinforces Covestro's broader materials portfolio for battery systems, including battery covers and impact-absorbing components, ...

Since 1 June 2019, only Class 1 laser pointers have been permitted for indoors pointing purposes in Switzerland. The import, possession and use of laser pointers classified as 1M, 2, 2M, 3R, ...

Yes, certain CTEK chargers are compatible with lithium batteries--but not all models. As lithium batteries dominate the market for their lightweight efficiency and longevity, many assume any charger will work. However, using the wrong ...

Here, you will find safety knowledge and advice for travelling Switzerland. It won't be down to the wire cutting edge info on the most current events, but it is layered in the expertise of veteran travellers.

This review systematically focuses on the critical role of battery thermal management systems (BTMSs), such as active, passive, and hybrid cooling systems, in maintaining LIBs within their ...

As electric vehicles (EVs) gain momentum worldwide, the future of EV battery technology is more than a matter of performance -- it's a question of safety, sustainability, and global scalability. ...

The Pursuit of "Absolute Battery Safety, Fear-Free Energy, and Mobility"--A "Technology Roadmap Toward a Fail-Never Battery Future As the electrification of transportation and ...

This Special Issue addresses all the techniques that are necessary for a holistic safety assessment of these batteries, from the materials to the cell and the application of lithium-ion and post-lithium batteries.

One of the most significant concerns in rechargeable batteries is thermal safety, particularly the risk of thermal runaway (TR), a self-propagating, uncontrollable temperature increase that can ...

Detailed info and reviews on 13 top Electric Vehicles companies and startups in Switzerland in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Another Pixel 6a Catches Fire Due to Battery Issues The incident took place on July 26, according to the user's post. He managed to pull the phone by its charging cable and throw it onto a tiled ...
