

The Program for Translational Medicine in TMU (Taipei Medical University) is designed as multi-disciplinary. Faculty Members and Colleagues, The 2025 Outstanding Paper Award and Research Grant, organized by the ...

Automotive Research & Testing Center (ARTC) Backed by a large number of laboratories, ARTC has disposed of a global certification network in conjunction with European and US counterparts, providing one-stop services ...

Food Industry Research and Development Institute (FIRDI) FIRDI is one of the most comprehensive food research institutes in Taiwan. FIRDC strives to improve the sanitation and quality of processed foods. Its Bioresource ...

Taiwan battery material maker HCM signed a cooperation agreement with France's Saft to develop lithium manganese iron phosphate (LMFP) batteries for electric vehicles and energy ...

Taiwan's electric scooter industry may be on the cusp of a new chapter--one defined not just by innovation, but by fragmentation. With the potential emergence of a third battery-swapping ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...

Asia Pacific battery market will grow by 15.0% annually with a total addressable market cap of \$1,378 billion over 2023-2032, driven by the increasing demand for energy storage systems, ...

This study aims to qualitatively and quantitatively explore the R& D and business development activities of functional chemical manufacturers specializing in semiconductor materials, with a ...

NREL's electrochemical storage research ranges from materials discovery and development to advanced electrode design, cell evaluation, system design and development, engineering analysis, and lifetime analysis of ...

Taipei, July 16 (CNA) Molie Quantum Energy Corp. (MQE) announced on Wednesday that after a fire broke out at its lithium-ion battery cell plant in Kaohsiung on Monday, it will adjust ...

Taiwan's lithium battery and solar industries are confronting safety challenges that mirror risks seen across international markets, even as the government maintains support for domestic ...
