

About the Show World Battery & Energy Storage Expo (WBES) is an important event for the global new energy industry, gathering leading energy storage companies, technology ...

Ingeteam is supplying advanced technology for the Maryvale solar and energy storage project in eastern Australia, aiding the region's efforts to expand renewable energy. Owned by Gentari, ...

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical nodes ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

In 2025, global energy investment is expected to reach \$3.3 trillion -- the highest level ever recorded, according to the IEA World Energy Investment Report 2025. Clean energy will account for two-thirds of that total, led by investment in ...

2. Related Electric vehicles (EVs) and electric water heaters are quietly revolutionizing how we think about energy and urban infrastructure. They're transforming cities into vast, distributed ...

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been connected to the ...

Israel's Augwind Energy has announced plans to build the world's first commercial-scale AirBattery energy storage facility in Germany, marking a major breakthrough in the race to ...

The China Energy Storage Alliance (CNESA) recently released its 2024 rankings, highlighting the leading companies in China's energy storage sector. Based on shipment volumes and installed capacity, the rankings ...

As a global technology leader in the new energy sector, Alltop will make its grand debut at the 17th World Solar Photovoltaic & Energy Storage Industry Expo (Solar PV & Energy Storage ...

This project is the largest hybrid energy storage installation in China and hosts the world's largest grid-forming vanadium redox flow battery, set to reach a 250 MWh/1 GWh capacity in the ...

Fortescue, an Australian green technology, energy, and metals company, has collaborated with the Green

## World energy storage

Hydrogen Organisation (GH2) and Trovio to issue the world's first digital fuel certification for an ammonia-to-ship ...
